Apps for Autism
(Current apps available on the NLSEC Autism iPods)

Autism Apps	Autism Apps is a comprehensive list of apps that are being used with a by people diagnosed with autism, Down Syndrome and other developmental disabilities. Autism Apps links to extensive reviews of the apps written by parents, specialists and other users usually from first-hand experiences.	Notes:
Behavior Tracker Pro	Behavior Tracker Pro is an iPhone/iPod Touch application that allows BCBAs, behavioral therapists, aides, teachers or parents to track behaviors and graph them. The application was specifically designed to support the behavioral treatment plans for children with Autism.	Notes:
Grace Picture Exchange for Non-Verbal People	A simple picture exchange system developed By and For non-verbal people allowing the user to communicate their needs by building sentences from relevant images. It can be customized by the individual using their picture and photo vocabulary with the user taking and saving pictures independently to the app.	Notes:
iPrompts	iPrompts is a mobile, visual support aid for the iPhone and iPod Touch. This app provides several picture-based prompting tools (no voice output) for caregivers to help individuals transition from one activity to the next, understand upcoming events, make choices, and focus on the task at hand.	Notes:
Model Me Going Places	Model Me Going Places™ is a great visual teaching tool for helping your child learn to navigate challenging locations in the community. Each location contains a photo slide show of children modeling appropriate behavior. 6 locations: Hairdresser, Mall, Doctor, Playground, Grocery Store, and Restaurant.	Notes:
My Choice Board	The primary purpose of MY CHOICE BOARD is to present a visual display of "choices" to those with limited communication skills. This gives individuals with Autism, communication delays or learning differences the opportunity to be independent and express their own specific needs and wants.	Notes:

No More Meltdowns	This app follows Dr. Jed Baker's 4-step model for managing meltdowns. Use this app to analyze data, understand behavior patterns and consult more detailed versions of Dr. Baker's prevention plans.	Notes:
Autism 5-Point Safety Scale	The autism help app assists individuals with ASD to communicate in emergency situations. Utilizing the 5-point scale, individuals can easily communicate their level of anxiety and needs in a high stress situation without the need to be verbal.	Notes:
Awesome Note Lite	This app helps users track daily thoughts, schedules, and to-do's. notes can then be sent vi e-mail.	Notes:
First Then Visual Schedule	This app is designed for caregivers to provide positive behavior support by providing a visual schedule. Visual schedules serve to increase independence and lower anxiety during transitions.	Notes:
Me Moves	Perform finger puzzles to the beat of the music and watch as the screen comes alive. Based on the award-winning MeMoves DVD, the MeMoves app can provide instant calm and focus anywhere.	
iEarnedThat	Turn any picture of a desired reward into a 3-D interactive puzzle. Set the goal and have your child earn the reward one puzzle piece at a time.	
Stories2Learn	This app comes preloaded with 12 social narratives. Users can quickly create a story using pictures from the child's environment to increase meaning and generalization of skills.	
Time Timer	Time timer displays time using a bright red disc that slowly disappears as time elapses. You can set it three different ways to help improve productivity.
