## Description

Notability is a note taker tool that can be used on the iPad. With this app you are able to write, type, record and organize your notes. Notes can be written and recorded at the same time, tapping on a word in the notes will bring up what was being said while the notes were being written. Notability has many features including: word processing features (styling, outlining and spell check), PDF annotation, auto-sync, inserting media (photos, web clips, drawings) and ways to organize notes.

## School

Take a note.  
Record a lecture.
